

Heated Grips

⊗ 4 Position Switch Hi/Med/Lo/Off ⊗

Installation Instructions

1. Remove the seat.
2. Remove the old grips.
3. Install the new heated grips onto the handlebars.
4. Hook the fused wire harness to the battery (red goes to positive, black goes to negative).
5. Find a place to position the temperature controller (place must be accessible to adjust the temperature).
6. Connect the temperature controller to the fused wire harness (the green two pin connector).
7. Connect the heated grips to the fused wire harness.
8. Use zip ties to keep wires out of the way.
