Girls Garage Workshop Slated

J&P Cycles®, Saturday, May 2

FOR IMMEDIATE RELEASE –

ANAMOSA, Iowa – There's a myth that girls don't like working on their cars or motorcycles or getting dirty. Well, that's not the case with every girl!

J&P Cycles® is pleased to announce that again this year, they will sponsor a Girls Garage Workshop on Saturday, May 2, from 9 a.m. to noon.

In its third year of being offered, the Girls Garage Workshop is a helpful resource that not only familiarizes women with the motorcycle, but goes even farther with maintenance information. Workshop instructors start the workshop at the front end of the motorcycle and work their way back.

Class Instructor Merrill Bonney, J&P Cycles® showroom sales tech explains, "We follow a power point presentation showing the major parts of the motorcycle and their function with explanations of different types of frames, front ends, engine operation, primary drive, secondary drives, and rear suspension."

He adds, "The purpose of the class is to give the ladies some knowledge of how a motorcycle works and the names of all the parts, so they get to know their motorcycle. We invite participants to ask any and all questions they have."

The outline for the Girls Garage Workshop covers many topics. In addition to a complete bike overview, the class will review a "before you ride" checklist. General maintenance techniques are presented and changing and adding new accessories will be discussed.

"As more and more women become interested in not only motorcycling, but riding their own motorcycles, it was important to us to add a workshop that caters directly to the women," J&P President John Parham said. "Each year, we've seen an increase in the number of attendees. We're looking forward to this year's workshop and working with a great group of ladies."

For more information or to register, visit J&P Cycles® online at WWW.JPCYCLES.COM or call 319-462-4817.
