

Input Voltage	Running Light Wattage	Turn Signal Wattage
12V DC	.48 watt	1.56 watt

Warranty and Disclaimer

Within THREE years after the purchase date, the original buyer may return any product that has failed due to a defect in materials or workmanship.

Installation of this product must be performed by a licensed professional. Should the failure of the product be the result of damage occurring as a result of improper installation, alteration of the product or an act or omission on the part of the consumer, this warranty is void. XKGLOW Lighting shall not be responsible for any consequential damages which arise from the use and/or installation of the product. If the kit is installed in any manner other than specified, XKGLOW Lighting reserves the right to deny any warranty claims at the discretion of the technical support department. Any product return must include the original packaging, invoice number and a statement of the alleged defect. Upon receipt of the returned product, the company will test the product for defect. If the results of the testing do not support the warranty claim, do not reveal any defect or indicate consumer negligence in the installation and handling of the product, then the product will be returned to you and you will be charged a reshipping fee. If the product is returned from an address within the continental United States, within the first 30 days after purchase, and is found to be defective, XKGLOW Lighting will exchange or refund the original purchase expense. This offer does not extend to the cost for shipping charges on any international packages.

Additional Disclaimer Terms

Please check your local and state laws for the proper use of this product.

- Improper installation of electrical products such as lighting may cause damage to any vehicle or device to which the improperly handled or installed lighting is attached.
- Improperly installed product may cause electrical injury to persons.
- It is recommended that the kit should be installed by a licensed professional.
- XKGLOW assumes no liability for the installation of the product.
- Warranty or liability will not exceed the product purchase price, which shall be buyer's sole and exclusive remedy.

Return/Exchange Procedure

1. Email [xk@xkglow.com] to notify us of the product issue as well as the item number and name of customer on invoice.
2. We will send you the trouble-shooting guide to fix the issue, or to narrow down which of the component(s) need to be replaced. If the issue still exists, we will ask you to send back the defective items to be replaced.
3. Please send the returned item as instructed, along with claims and a telephone number where you can be reached.
4. After the returned item(s) have been accepted and inspected, we will issue a refund or replace the items ASAP. For refunds, item(s) must be sent to XKGLOW within 30 days from date of purchase. Original shipping charges are not refundable.

We always stand behind our products and are committed to our customers! For questions you may have, please contact xk@xkglow.com. We normally respond within 24 hours. (Monday-Friday).

Mounting Instructions

1. **Test all components before mounting:** As shown below, connect ALL light units together and connect them to the corresponding wires on the vehicle. Power on the vehicle and operate the running lights and turn signals to test the lights. If the lights show any defects, please contact us and we will be happy to replace them for you.

2. **Choose mounting location:** Determine desired mounting location for turn signals. It is best to mount the lights to a flat surface. Drill three 3/16" holes for the wire and bolts to fit through. Use the templates below to drill those holes.
3. **Mount Turn Signals:** Mount the turn signals using the provided washers and nuts. Wire the BLACK wire to GROUND, the YELLOW wire to the TURN SIGNAL, and the RED wire to the RUNNING light. Be sure that the wires will not be pinched when routing them.
4. **Test Turn Signals:** You MUST test all functions of the lights before operating the vehicle. Test the running lights and turn signals, then you are ready to hit the road or trail!
